ELEVATION CERTIFICATE

This certificate is required for a building to obtain construction in Special Flood Hazard Areas. The building construction after beginning on or after the Flood Insurance Act of 1968 must comply with the Flood Insurance Act of 1968.

PROPERTY OWNER:
 NAME: Dr. William Keane

PROPERTY ADDRESS: 12th Ave., Longport, N.J., Block 2 Lot 24

I certify that the information on this certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.

SECTION I ELIGIBILITY CERTIFICATION (Completed by Local Community Permit Official or a Registered Professional Engineer, Architect, or Surveyor)

Section 101a	Section 101b	Section 101c	Section 101d	Section 101e	Section 101f	Section 101g
345302	0001	B	8/15/83	A8		10.00

YES The information described above will be consistent in compliance with the community flood plain ordinance. The certificate may rely on community records. The location of the building (including basement) will be at an elevation of _____ feet, NGVD. I agree to construct the building at the elevation may place the building in violation of the community's flood plain management ordinance.

YES The building described above has been constructed in compliance with the community's flood plain management ordinance based on elevation data and visual inspection or other reasonable means.
 IF NO is checked, attach copy of variance issued by the community.

YES The mobile home located at the address described above has been tied down (anchored) in compliance with the community's flood plain management ordinance, or in compliance with the NFIP Specifications.

SIGNATURE: *Paul H. Koelling* DATE: 6/12/84 PHONE: 609-927-0279

SECTION II ELEVATION CERTIFICATION (Completed by a Local Community Permit Official or a Registered Professional Engineer, Architect, or Surveyor.)

FIRM ZONE A1-A30: I certify that the building at the property location described above has the lowest floor (including basement) at an elevation of 12.00 feet, NGVD (mean sea level) and the average grade at the building site is at an elevation of 8.7 feet, NGVD.

FIRM ZONES V, V1-V30: I certify that the building at the property location described above has the bottom of the lowest floor beam at an elevation of _____ feet, NGVD (mean sea level), and the average grade at the building site is at an elevation of _____ feet, NGVD.

FIRM ZONES A, A99, AH and EMERGENCY PROGRAM: I certify that the building at the property location described above has the lowest floor elevation of _____ feet, NGVD. The elevation of the highest adjacent grade next to the building is _____ feet, NGVD.

FIRM ZONE AO: I certify that the building at the property location described above has the lowest floor elevation of _____ feet, NGVD. The elevation of the highest adjacent grade next to the building is _____ feet, NGVD.

SECTION III FLOODPROOFING CERTIFICATION (Certification by a Registered Professional Engineer or Architect)

I certify to the best of my knowledge, information, and belief, that the building is designed so that the building is watertight, with walls substantially impermeable to the passage of water and structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy that would be caused by the flood depths, pressures, velocities, impact and uplift forces associated with the base flood.

YES NO In the event of flooding, will this degree of floodproofing be achieved with human intervention?
 (Human intervention means that water will enter the building when floods up to the base flood level occur unless measures are taken prior to the flood to prevent entry of water (e.g., bolting metal shields over doors and windows).)

YES NO Will the building be occupied as a residence?
 If the answer to both questions is YES, the floodproofing cannot be credited for rating purposes and the actual lowest floor must be completed and certified instead. Complete both the elevation and floodproofing certificates.

FIRM ZONES A, A1-A30, V1-V30, AO and AH: Certified Floodproofed Elevation is _____ feet, (NGVD).

THIS CERTIFICATION IS FOR SECTION II BOTH SECTIONS II AND III (Check One)

CERTIFIER'S NAME: Paul H. Koelling COMPANY NAME: Paul H. Koelling & ASSOC. LICENSE NO. (or Affix Seal): #21771
