609-823-2731

Richard L. Carter, P.E., P.P., CME  
Municipal Engineer - Ext 121

## MEMORANDUM

August 28, 2017

**TO:** Mayor Nicholas M. Russo, Ed.D  
Commissioner James P. Leeds, Jr  
Commissioner Daniel Lawler

**FROM:** Richard L. Carter, P.E., P.P., CME, RMC  
Municipal Engineer 

**RE: ARMY CORPS OF ENGINEERS  
Absecon Island Shorefront Protection Project**

I have today received an E-mail from the Corps through the State regarding the proposed pipe landfall in Longport. While I have not received confirmed dates, the start of the landfall piping will be after Labor Day and as soon as the end of next week. The landfall will be between 29<sup>th</sup> and Pelham Avenues.

The second part of this will be the sand pumping through this landfall. I have been informed that the Corps will be completing the remaining portion of Margate from this landfall by filling Longport and working into Margate. Once I have complete dates on the pumping portion, I will pass them on.

I have requested that a copy of this Memo be posted on the Borough Website.
